**NOTICE OF MAJOR DRAINAGE PROJECT
RIVER ROAD**

December 4, 2018

Dear Resident:

This letter is to inform you of the upcoming stormwater drainage improvement project beneath River Road. The Montgomery County Department of Transportation's (MCDOT) Division of Highway Services (DHS) will be managing the project. This project will consist of the removal of the existing 84-inch corrugated steel pipe and the installation of a new 84-inch reinforced concrete pipe. Concrete headwalls will be installed on both sides of the road to assist in the channelization of water.

The work will be performed under contract by D & F Construction Co., Inc., The county right-of-way near your residence may be disturbed by the planned project improvements. The nearby area will be backfilled and graded with topsoil, grass seed, and straw following the completion of the project as disturbed areas within the county right-of-way will be restored as appropriate. Once the new concrete pipe is installed, the roadway near the work site will be resurfaced with Hot Mix Asphalt.

As part of this work, a small portion of River Road between Partnership Road and Hughes Road will be closed to traffic. A detour route has been established and provided on the reverse of this letter.

MCDOT anticipates this project beginning in the middle of December 2018 and will take roughly four months to complete, weather permitting. Work hours are from 7 a.m. to 5 p.m. MCDOT apologizes for any inconvenience that this project may cause. Your patience and understanding are appreciated during this important construction activity.

Should you have any general questions or concerns not related to this project, you may wish to contact MC311 at <http://www3.montgomerycountymd.gov/311/> or dial 3-1-1.

We thank you for your cooperation and again we apologize for any inconvenience this project may cause. We will work with you to address any of your concerns.

Sincerely,

John Birton
Program Manager

NOTICE OF RIVER ROAD MAJOR DRAINAGE PROJECT

SAFETY NOTICE

Please drive gently and safely through the work site and kindly remember that while repair work is underway, personnel and construction vehicles will be moving around the site. Some materials may be stored in the area. Please use caution when walking or driving through the construction zone. Children may be attracted to the noise and machinery, so we ask that you please keep all children under close supervision at all times, even after the work is completed for the day. Also, please follow the direction of flagmen and temporary signs and traffic control devices. We appreciate your patience and cooperation while we make these much-needed improvements to the infrastructure. *If, for some reason, you have a medical condition or another issue that may be impacted by the construction activities, please alert the Project Manager listed below or Josh Faust, Public Outreach Manager, at 240-777-7642.*
